# Filter Housing - Standard Diameter

The 10" White Standard Diameter Filter Housing is manufactured from Polypropylene which has excellent chemical resistance enabling it to be used in a variety of applications within the Domestic, Rural, Commercial and Light Industrial fields.

The Housing Cap is moulded with mounting bosses to accommodate a Wall Mounting Bracket. Unlike clear housings the White Polypropylene is opaque preventing light from penetrating which causes microbiological growth inside the filter housing.

## Typical Applications

- Point of Use (POU)
- Undersink
- Drinking Fountains
- Ice Machines
- Beverage Dispensers
- Recreation Vehicles
- Marine
- Domestic
- Commercial
- Light Industrial

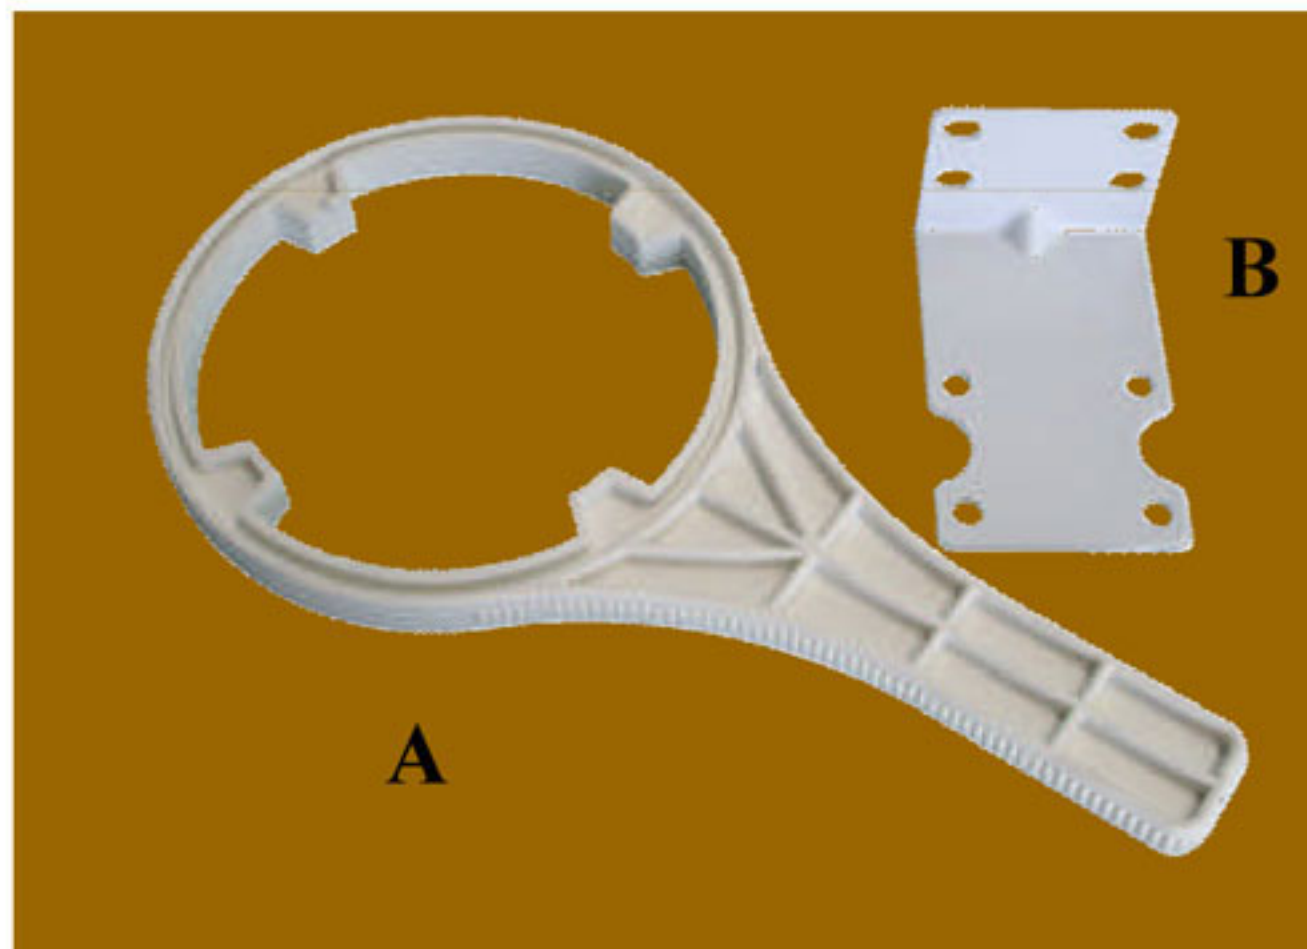

## General Specifications

- Port Size : 1/2" BSP
- Dimensions
  - Width: 118mm (4 5/8")
  - Height: 312mm (12 1/4")
- Temperature Ranges: 4.4°C - 43°C (40°F - 110°F)
- Operating Pressure: 690 kPa (100 psi) (Maximum)
- Recommended Flow Rate: 30 Lpm (Maximum)

**NOTE:** Flow rate will vary depending on type of filter cartridge installed.  
(Filter Cartridge NOT included)

### Optional Extras

- |                     |                |
|---------------------|----------------|
| A. Wrench           | P/No. WAW10HS  |
| B. Mounting Bracket | P/No. WABS10SW |

**Warning:**  
For drinking water applications, do not use water that is microbiologically unsafe or of unknown quality without adequate disinfection.
